

**Appl. No.** : 10/070,406  
**Filed** : October 7, 2002

### **AMENDMENTS TO THE SPECIFICATION**

Please amend the paragraph beginning on page 7, line 20, as indicated below.

Preferably the whey protein hydrolysate comprises at least one bioactive peptide selected from the group consisting of LIVTQ (SEQ ID NO: [[1]]4), MKG (SEQ ID NO: 2) and ALPMH (SEQ ID NO: 3), in combination with at least one bioactive peptide selected from the group comprising SAP (SEQ ID NO: [[4]]1), VSLPEW (SEQ ID NO: 5), INYWL (SEQ ID NO: 6), LKPTPEGDLEIL (SEQ ID NO: 7) and LKGYGGVSLPEW (SEQ ID NO: 8).

Please amend the paragraph beginning on page 8, line 24 as indicated below.

The invention further comprises at least one bioactive peptide selected from the group consisting of LIVTQ (SEQ ID NO: [[1]]4), MKG (SEQ ID NO: 2) and ALPMH (SEQ ID NO: 3), in combination with at least one bioactive peptide selected from the group comprising SAP (SEQ ID NO: [[4]]1), VSLPEW (SEQ ID NO: 5), INYWL (SEQ ID NO: 6), LKPTPEGDLEIL (SEQ ID NO: 7) and LKGYGGVSLPEW (SEQ ID NO: 8).
